Dear Mr. Heisberg,

I first want to commend you on your exhausting research and publications on the JFK assassination. You have truly been a "hero" for all of us who feel helpless about this tragic event.

I am a teacher and coach in Seymour, Wisconsin and have been reading and viewing everything that I could for the last ten years. I have a friend named George Roman who is an acquaintance to your good friend Dr. David Wrone of Stevens Point, WI. This past July, George and I went to Dr. Wrone's home and visited with him for three hours about the JFK assassination. It was a great thrill to be able to discuss the various aspects of the case with such a knowledgeable person as Dr. Wrone. As you can well imagine your name came

up a great deal in our discussions. I had always been inspired by your comments on various JFK videos that I had seen. You really get your point across and your humorous attacks on the Warren Commission always make me chuckle. One of my favorites is "Cows will jump over the moon before you'll find real photos and X-rays in the Warren Report." Your persistence in the face of numerous obstacles has been incredible.

After meeting with Dr. Wrone, I bought <u>Never Again</u> the next day and read it with fascination. I would appreciate it if you would send me a price list for all of your publications. I am especially interested in reading Case Open since Posner's Case Closed made me want to vomit.

I wish you the best in your battle with your health problems. May God Bless You.

Yours in Truth,

Tom Wilson
